The easiest way to get to the cruise ship is to take the subway to Östermalmstorg, and then walk 500 m to the quay. Östermalmstorg is one stop from subway hub T-Centralen (any train on the red line in direction Ropsten or Mörby Centrum) and two stops from Tekniska högskolan, the stop closest to Nordita (any train in direction T-Centralen).

From the platform, take the exit Stureplan. Then from the entrance hall of the subway station, take the second staircase on the right hand side to the street level of Birger Jarlsgatan.

Walk along this street to the left until you reach a bay, Nybroviken. (If you come to a triangular open place, you are walking in the wrong direction).

The ship is moored on the right-hand side of Nybroviken, quay 8 (kajplats 8), in front of Strand Hotel.
FJÄRD is the Swedish word for an open stretch of water in an archipelago, surrounded by islands.

Askrikefjärden seen from Lidingö.
